

# Back to School

## School is in Session

By now everyone should be adjusted to the daily school routine or may be still adjusting; getting up early in the morning and hurrying to get to school on time.

For most parents, it's a routine that translates to joy and blessings. Finally, some quiet time and quality time for one-self after a busy summer.

Of course, at Kumon we never rest; except during our scheduled breaks. And yet, even during those "empty-days" we miss your children.

Our joy comes from watching the children grow and blossom into confident, self-learners.

We never tired of reminding them of their true-potential; and we raise the bar each time as they master their material.

Most definitely, we could use some of your help in the "encouragement" department. Children and sometimes parents, get discouraged by the loads of activities and homework their children have during and after school. But, lets not forget that above

all, giving a good, solid education is the best gift you can give to your child.

As this new school year begins, we hope that you share our hopes and motivation to make your children successful in their life-journey.

Imagine the possibilities...

## Turning Green

Recently, you may have noticed our communication increased to more e-mails and less printed material (newsletters, etc.) We are turning **green!**

In an effort to reduce,

reuse, and recycle, we will use the electronic media whenever possible to keep you informed about your children's progress and about Kumon.

So, keep your e-mail

address up to date with us. Thank you.

### A.S.H.R.—Advance Student Honor Roll (April through June, 2008)

This program recognizes Kumon students working ahead of their school grade level (ASHR Level; 1 = one year ahead, 2 = two years ahead, 3 = three years ahead.) More than a small share of our enrollment consists of ambitious students who remain in the program to stay above grade level and obtain more challenging material than they are receiving at school in pursuit of their academic aspirations.

| ASHR Level | Grade | First Name             | Level |

A **BIG** welcome to our new students enrolled during July and August.

Our promise to you: *to build your confidence and self-reliance, so that you may advance successfully in your school years and beyond.*

As stated during the Parent Orientation, the Kumon program requires “*time and dedication commitment*” from the student and the parents in order to succeed. Just when you think it’s getting difficult, it gets easier again.

We look forward to many successes!

### Conferences in September

Mark your calendar, as September is conference month. If your child has been in the program 3 or more months and you have not had a conference with the Instructor, then most likely you will be receiving an invitation for a one-on-one conference with the Instructor.

If you have had a conference before, and want to receive your child’s report only, then please drop us a line or a call us to arrange for the report to be prepared for pick up.

“Our joy comes from watching the children grow and blossom into confident, self-learners.”

Barbara Penaloza  
Instructor
